Research Foci

Please select your Research Foci/Content. (Select all that apply)

Academic Achievement
ADHD
Addiction
Aging
Alcohol
Allergies
Anxiety
Arthritis
AI
Asthma and Other Respiratory Diseases
Autism
Cancer
Cardiovascular Disease
Child/Adolescent Abuse, Neglect or Maltreatment
Chronic Diseases
Cognitive Development
Communication Disorders
Complementary and Alternative Medicine
Crime
Depression
Delinquency
Dementia
Diabetes
Drug Use
Eating Disorders
Economic Analysis
Economic Self Sufficiency
Elder Abuse
Environmental Health
Family Violence
Gender Differences
Genomics
Gerontology
Gun Violence
Health Literacy

Healthcare-Associated Infection
HIV/AIDS
Imaging and Bioengineering
Infant/Child Health Development
Injury, unintended
Intimate Partner Violence/Teen Dating Violence
Kidney Disorders
Maternal Health
Mental Health
Minority Health and Health Disparities
Motor Vehicle Accidents
Neurocognition
Neurodivergent
Neurological Disorders
Neuro-prevention
Nutrition
Obesity
Occupational Safety
Oral Health
Osteoporosis
Other Chronic/Disabling Condition
Other Health
Other Infectious Disease
Parenting, e.g., monitoring, interaction patterns
Physical Activity
Physical Development
Physical Health
Positive Youth Development
Poverty and Economic Issues
Pregnancy
Preparedness
Psychosis
PTSD
Public Health
Quality of Life
Race, Culture, Ethnicity
Sexual Behaviors
Sexual Violence
Sexually Transmitted Diseases
Skin Diseases
Sleep Disorders
Social/Emotional Development
Stroke
Substance Use or Abuse
Suicide
Tobacco

Unemployment
Violence Prevention
Vision
Women's Health
Youth Violence
CROSS-CUTTING RESEARCH FOCI: Screening
CROSS-CUTTING RESEARCH FOCI: Comorbidity and Multi-morbidity
CROSS-CUTTING RESEARCH FOCI: Dissemination and Implementation
Not Applicable

Research Method /Design

Please select all that apply.

Adaptive Intervention Designs
Adaptive Research Designs
Co-design/co-creation methods
Cohort-Sequential (Accelerated Longitudinal) Designs
Community-based participatory
Cross-Sectional Designs
Fractional Factorial Designs
Group- or Cluster-Randomized trials
Human-centered design
Hybrid Designs Combining Effectiveness and Implementation
Mixed or Multi-Method Designs for Qualitative and Quantitative Studies
Multiple Baseline Designs, Quasi-Experimental Designs
Regression Discontinuity Designs
Sequential Multiple-Assignment Randomized Trials (SMARTs)
Time Series Designs
NOT APPLICABLE
Other:

Research Method /Analytic Quantitative

Please select all that apply.

Agent Based Modeling
Analysis of High-Dimensional Data
Analysis of Small Sample Data
Bayesian Methods
Complier Average Casual Effect (CACE) Analysis
Causal Inference
Cost-Effectiveness Methods
Data Mining
Decision Analysis
Econometric Methods

General Linear Modeling (including regression, multivariate analysis)
Generalized Linear Modeling (Logistic, Poisson, Gamma, etc.)
Genome-Wide Statistical Analysis
Geospatial Analysis
Growth Modeling
Individual Person-Level Meta-Analysis
Integrative Data Analysis
Item Response Theory
Latent Class and Latent Variable Modeling
Measurement Theory and Methods (EFA, CFA, etc.)
Mediation Analysis
Meta-Analysis (of summary statistics)
Methods for Analysis of Intensive or Long Longitudinal Data
Microsimulation Methods
Missing Data Methods (multiple imputation, full information maximum likelihood)
Mixture Models (including growth and regression mixture models)
Moderation Analysis
Multi-Level or Hierarchical Regression
N of 1 Experiments
Network Analysis
Predictive Analytics
Propensity Score Methods
Psychometric Methods
Simulation Methods
Statistical Power Analysis
Structural Equation Models
Subgroup Analysis
Survey Data Analysis
Survival Analysis
System Dynamics
Systems Engineering Methods
Systems Science
NOT APPLICABLE
Other:

Research Method /Analytic Qualitative

Please select all that apply.

Alternative/Authentic Assessment
Case Studies
Content Analysis
Document Analysis Focus Groups
Key Informant Interviews
Qualitative Comparative Analysis
Structured Observation

NOT APPLICABLE
Other:

Research Method / Data Collection Assessment

Please select all that apply.

Biosensor Based Assessment
Clinical Assessment
Computerized Adaptive Testing
Electroencephalography (EEG) and Related Methods
Electronic Health Records
Functional Magnetic Resonance Imaging (fMRI) and Related
Genetic Assessment - Candidate genes
Genetic Assessment - Genome-Wide
Genetic Assessment - Sequencing
Machine Learning or Other Artificial Intelligence Methods mHealth
Methods for Collecting Ecological Momentary Assessment
Mobile Assessment
Neuroendocrine Assessment (Cortisol, C-reactive protein)
Neurocognitive Assessment (response inhibition, attention)
Quality Control Methods
Questionnaire Development
Survey Sampling Methods
Technology-assisted assessment/intervention delivery
Twin and Extended Family Designs (e.g., children of twins designs, adoption designs)
NOT APPLICABLE
Other:

Research Population I

Please indicate the type of prevention research you engage in (check all that apply).

Universal: (entire population of participants who have not been identified on the basis of risk)
Selective: (participants deemed to be at risk by virtue of membership in a particular population segment or risk exposure)
Indicated: (participants have detectable signs or symptoms of a particular condition)
NOT APPLICABLE
Other:

Research Population II

Does your research include any of the following (check all that apply).

Culture Adaptations
International or non-U.S. Populations
Non-English speaking Language(s)
Racial or Ethnic Minority Groups
Rural or Remote
Sex Differences
Sexual or Gender Minorities
Underrepresented Age Groups
Underserved Geographical Regions
Underserved education
Underserved income
Other Specialized Populations, e.g. military
Not Applicable

Research Population III – Prevention Science Workforce

Community Partners
Coalitions
Decision makers
Educators
Practitioners
Public Health
Public Systems
Researchers
Not Applicable
Other:

Developmental Stage

In defining your target population does your research focus on a particular developmental stage? (Check all that apply.)

Pre-natal
Infancy (0-2)
Early childhood (3-6)
Middle childhood (7-9)
Pre-adolescent (10-12)
Adolescent (13-18)
Transition to adulthood (19-25)
Adulthood
Aging
Not Applicable

Research Funding I

Please indicate how your research is funded. (Select all that apply)

Non-profit research center
For profit research organization
Foundation
Local agency
State agency
Federal agency
Not Applicable
Other:

For questions regarding online abstract submissions, the peer review process, or other details, please contact Jennifer Lewis by email at jenniferlewis@preventionresearch.org or by telephone at 703-934-4850, ext. 1.

Society for Prevention Research

11350 Random Hills Road, Suite 800, Fairfax, VA 22030, USA
